Oct 2014 – Jul 2016  
**Sr. UI Developer**

**MRM//McCANN** – Salt Lake City, UT

Used HTML5, CSS3, custom JavaScript, jQuery, AngularJs, Skrollr, GSAP, Bootstrap, SASS, Grunt, Gulp, WordPress, PHP to help tell our advertising clients' stories and support their current and upcoming campaigns. Involved as development lead for our Verizon Wireless account from the early stages, including brainstorming concepts with Creative Directors as well as advising on technical feasibility. Also serviced Verizon Enterprise, Intel, Exxon, Cisco and USPS.

Feb 2014 – Mar 2015  
**Sr. Software Engineer**

**STG** – Salt Lake City, UT

*For MRM//McCANN (Salt Lake)* – Used HTML5, CSS3, jQuery, Skrollr, GSAP, Bootstrap, SASS, WordPress, PHP to support clients UI development needs, building a set of animated sales tools for Verizon Wireless, as well as creating a custom responsive WordPress theme and plugins for the Verizon Enterprise News and Insights center.

*For Aristocrat Technologies (Las Vegas)* – Used custom JavaScript, AngularJs, jQuery, SignalR, HTML5, CSS3, Bootstrap to build the front-end and SDK of a JavaScript platform which added a taskbar and apps (e.g. account management, drink ordering) to touchscreen slot-machines.

Jul 2012 – Nov 2013  
**Sr. UI Developer**

**ABOUTONE LLC** – Lehi, UT

Developed new features for the startup's family organization web application using HTML5, JavaScript / AJAX, jQuery, AngularJS and Foundation. Designed wireframes and mockups, and converted the web app to a responsive design.

Apr 2011 – Jul 2012  
**Sr. Web Design &  
UX Specialist**

**USANA HEALTH SCIENCES** – Salt Lake City, UT  
Improved the user experience and user interface design of Usana’s existing suite of websites and internal applications. Conducted usability audits of existing websites and tools.

Sep 2009 – Apr 2011  
**Web Production Manager /  
Sr. Web Designer**

**BOOST MOBILE** – Salt Lake City, UT  
Managed the production and implementation of web initiatives in coordination with device launches, specials and promotions for BoostMobile.com, which received an average of 6 Million visitors a month. Managed internal resources and worked hand-in-hand with world-class vendors to provide creative direction for all external projects.

Feb 2009 – Sep 2009  
**Web Application  
Programmer**

**NORTHROP GRUMMAN CORP** – Clearfield, UT  
As a temporary defense contractor, provided support and development for applications which focused on the sustainment of technical data and on-going modifications to the RQ-4 Global Hawk and Minuteman ICBM weapon systems.

Jun 2006 – Oct 2008  
**System Architect**

**MONDO POWER, INC.** – Salt Lake City, UT  
Designed the system architecture of MondoMega, a web platform, and several apps, which ran on the platform. Managed a group of developers and graphic designers during the development process.
